Sunscreen and Insect Repellent - Permission

Sunscreen and insect repellent should be applied to a child at least once at home to test for any allergic reaction. Combined sunscreen/insect repellents are prohibited.

Sunscreen must provide UVB and UVA protection with an **SPF of 15 or higher**.

Insect repellent may only be used if recommended by public health authorities or requested by a parent/guardian. The repellent must contain a concentration of **30% DEET or less.** Oil of lemon eucalyptus and para-methane products may not be used on children under the age of three.

All sunscreen and insect repellent provided by a parent/guardian must be:

- provided in the original container;
- in an aerosol form (no lotion);
- clearly labeled with the child's full name;
- within the expiration date;
- appropriate for the age of the child; and
- free of nut ingredients

Complete one of the following:

I **give the Glenview Park District** permission to spray (name of sunscreen)_____
