

How to Schedule a Makeup from the App

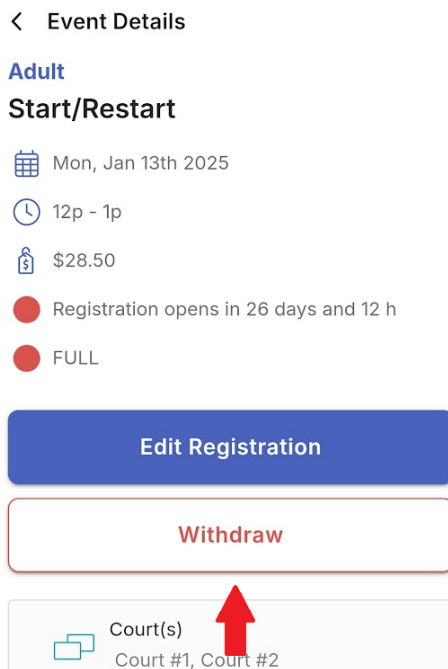

Cancel a Class

From the app home page click on the day you would like to cancel.

Note - If the class you want to see is more than 30 days in the future you will need to adjust the settings. Click EVENTS then MY EVENTS then FILTER. Set the Date to Custom and select a range. You will now see all of the events based on your settings.

When you are on the desired date, click **WITHDRAW**

Note - You will only be removed from this particular class not the entire session.

On the next screen enter a Withdraw Reason then click **Withdraw** again to finalize.

Notes

- Makeups are not guaranteed and must be done in the same session.
- If a participant does not show up for a scheduled makeup, it will still count as a makeup.
- Makeups can be done in the same or lower level; never above.
- If classes are full, you can show up and hope there are some no shows. If everyone comes, you will be asked to leave.
